ABSTRACT

This study aims to review the management of direct grants for goods and services at KPPN Semarang II. The management of grants, especially the types of goods and services, has an important urgency in managing state finances. Various new paradigms of development cooperation through grants also have a large quantity so that they have a positive effect on the national economy. Discussions related to the suitability of the management of grant funds with management mechanisms, quality of document disclosure, as well as constraints and solutions for managing grant funds are expected to optimize the performance of the grant management work unit. This study uses qualitative methods in the form of interviews and literature study. By reviewing the grant management mechanism, you will find out if it is in accordance with the reference to the laws and regulations. By reviewing grant documents, the quality of disclosure of grant documents can be measured. A review of the constraints and solutions can also provide an improvement in the administrative order of the satker and a solution for accurate recording of direct grant data for goods and services. The results of these discussions can improve the effectiveness and efficiency of the management of direct grants for goods and services.
